REGARDING PATIENT PRIVACY

I understand that I have certain rights to privacy regarding my protected health information. These rights are given to me under the Health Insurance Portability and Accountability Act of 1996 (HIPAA). I understand that by signing this consent I authorize you to use and disclose my protected health information to carry out:

- Treatment (including direct or indirect treatment by other healthcare providers involved in my treatment);
- > Obtaining payment from third party payers (e.g. my insurance company);
- > The day-to-day healthcare operations of your practice.

I have also been informed of, and given the right to review and secure a copy of your *Notice of Privacy Practices,* which contains a more complete description of the uses and disclosures of my protected health information, and my rights under HIPAA. I understand that you reserve the right to change the terms of this notice from time to time and that I may contact you at any time to obtain the most current copy of this notice.

I understand that I have the right to request restrictions on how my protected health information is used and disclosed to carry out treatment, payment, and health care operations, but that you are not required to agree to these requested restrictions. However, if you do agree, you are then bound to comply with this restriction.

I understand that I may revoke this consent, in writing, at any time. However, any use or disclosure that occurred prior to the date I revoke this consent is not affected.

VELscope Vx Oral Cancer Assessment

Our office recommends and uses VELscope oral cancer assessment testing. Early detection is a key to survival. Alarmingly, 25% of the new oral cancer cases are people that do not have any of the traditional life style risk factors, such as age, tobacco and alcohol use.

The VELscope testing is in addition to our traditional visual oral cancer screening and will only add a few minutes to the entire exam. However, the VELscope exam may or may not be covered by your insurance.

The fee for this enhanced examination is only **<u>\$25.00</u>**. As part of our standard or care- and because we care about you- we strongly recommend that you choose this additional screening procedure.

At your hygiene appointment today, you will be asked:

Yes, I accept VELscope _____

No, I decline VELscope _____

Fluoride Treatment

The benefits of fluoride are extremely valuable to your dental enamel. Everyone benefits from fluoride, especially children between the ages of 6 months and 16 years because this is the timeframe during which the primary and permanent teeth come in. It is also imperative for adults to help prevent sensitivity and decay, which can be caused by the demineralization of enamel from the acids and sugars found in food and drinks consumed daily. The continuous benefits of fluoride have been proven to strengthen enamel and aid in the prevention of cavities.

The fee for this enhanced service is only **<u>\$25.00</u>** if the benefit is not covered by your insurance. This is recommended once every 6 months for cavity prevention at your routine cleanings.

At your hygiene appointment today, you will be asked:

Yes, I accept Fluoride _____

 No, I decline Fluoride

Broken Appointment Policy

IMPORTANT

We have more patients who need dental care than we often have room in our daily schedule to provide. It is the inevitable result of the fact that we care about our patients dearly and prove it every day. When a patient does not show up for their appointment or cancels too close to their scheduled time, we are unable to fill this appointment time with another patient who desperately needs dental care. This policy is our attempt to ensure that both you and other patients receive the dental care that is needed.

Any patient that does not show up to a scheduled appointment or cancels with insufficient notice can still be a patient; however, our office will no longer be able to schedule them for their visits. Instead, these patients will be seen on a "same day basis", provided there is an opening in the schedule.
